KRAFT SECURITY TAPE

ECO-FRIENDLY KRAFT SECURITY TAPE:

THE BIODEGRADABLE AND COMPOSTABLE SOLUTION FOR SUSTAINABLE SEALING

Seals HQ's Kraft Security Tapes are designed to provide a strong seal and clear visual tamper evidence while being kind to the environment. The Kraft Security Tape is biodegradable and compostable, making this security tape an ideal choice for eco-conscious consumers and businesses who do not compromise on security.

The Kraft Security Tape is designed to be used on both porous and non-porous surfaces. The adhesive used in the Kraft Security Tape has been tested by SGS and proven not to leave traces of heavy metals and hazardous residues.

The Kraft Security Tape is available in Total Transfer only. The Kraft Security Tape can be supplied as:

- i) Perforated Tape - Perforated every 150.0mm, with 300 sections on a single roll of Kraft Security Tape, or
- ii) Continuous Roll of 50.0 meters

FEATURES

- **Environmentally Friendly:**
 - * *Biodegradable and Compostable*
 - * *No harmful chemicals*
 - * *Can be recycled alongside other paper products*
- **Instant adhesion:**
