SECURITY TAPE

STRONG AND VERSATILE SECURITY TAPES AND LABELS FOR ALL APPLICATIONS

Versatile Tamper Evident Security Tape designed to be used on both porous and non-porous surfaces. The strong adhesive ensures effective adhesion on any surface, yet is easy to remove. The Security Tape is highly tamper evident, and leaves a clear visual evidence if the tape has been removed.

The Secure Tape is is supplied in rolls of 50 meters. Application is made easy using a tape gun or by hand.

CLEAR VISUAL EVIDENCE

LEFT:
After application of Security Tape

MIDDLE:
During removal of Security Tape. A clear OPEN VOID message can be seen.

RIGHT:
After removal of Security Tape

The Security Tape uses Total Transfer technology and adheres strongly to both plastic and paper, thus eliminating the need to use 2 different security tapes depending on the surface. The Security Tape guarantees fast bonding and leaves clear residue on the surface as a visual evidence that the tape has been removed partially or completely at some point of time.

TECHNICAL SPECIFICATIONS

- Backing: 1 mil Polyester
- Adhesive: Agressive hot melt
- Size: 50.0mm width, 50 meters per roll
- Core: 76.0mm Inner Diameter Core
- Dispensing: Tape Gun or by Hand
- Application Temperature: 0°C - 50°C
- Recommended Storage Temperature: 15°C - 26°C
